2.1m 150 x 150 W4W	£ 84.05

Notes on Fresh Sawn Oak and Air Dried Oak:  
Some black bore holes acceptable.  
End trimming may be required by others.  
Surface checking, shrinkage and some face splitting will occur during the natural drying process of the timber.  
Some blue black staining may occur on the Oak when it has been in contact with ironwork, along with water staining which can be removed with recommended cleaning agent.  
Tannin leach may arise from the fresh sawn Oak; stain protection may be required on susceptible areas.
