

HUSQVARNA Cutting deck - CombiClip® 112

112 cm Combi cutting deck, offering BioClip and rear ejection cutting mode.

Three-blade cutting deck

The three-blade cutting deck offers first-class trimming on both left and right side and gives the same uncut circle diameter regardless of direction.

Service position

Service position on the cutting deck facilitates cleaning and service.

Combi cutting deck

The Combi cutting deck offers the versatility of two different cutting systems. Choose between BioClip® for lawn fertilisation and rear ejection for efficient mowing on areas with higher and rougher grass.

Floating cutting deck

The floating cutting deck follows the contours of the ground, which reduces the risk of scalping the lawn.

FEATURES

- The Combi cutting deck offers the versatility of two different cutting systems.
 - Service position for easy deck maintenance
 - Three-blade cutting deck
 - Floating cutting deck for reduced risk of scalping
 - Pivoting support wheels on the cutting deck
