## GATE BROCHURE

# ABOUT US

Established over 40 years ago, here at Hales we are a family owned business now into its third generation, based in the heart of the Shropshire countryside.

Historically, we were solely a sawmill who milled full round timber logs for wholesale. However, when we rebranded in 2015 we decided to focus our attention on specialising in the manufacturing of timber gates & fence panels for both wholesale and retail orders.

This has allowed us to operate a strict quality control across everything we manufacture and ensure fine attention to detail is used by all our expert joiners to guarantee a high quality finish.

# OUR SERVICES

All our timber gates are handcrafted to order in the heart of the Shropshire countryside by our expert joiners.

We are proud to be renowned for the quality and range of our timber gates and doors. **Field, Ranch** and **Wicket** gates provide 'open' design options, whilst our **Tongue & Groove** gates and **Closeboard** doors provide additional privacy.

As well as our standard range we can also manufacture bespoke gates to meet your specific requirements. We carry a wide range of gate furniture and offer a choice of robust pressure treated posts.

# FIELD GATES

Bespoke sizes available

Our traditionally styled **5 Bar Field Gates** are built using strong mortice and tenon joints. We manufacture both standard and bespoke sizes. You can choose from 4 different timber species, as seen in the table.

These gates are extremely versatile, whether you are after a timber gate for paddocks, fields, stables, driveways or as an agricultural gate this is a perfect option.

Extras Include: 75 x 75mm bottom rail (For additional strength or to electrify the gates) & Pales (Either for aesthetics or to continue boundary fencing).

Timber Species Available	Height	Standard Widths
<u>Softwood:</u> Sawn Larch/ Douglas Fir, Planed Swedish Redwood,	1.2m (to top bar)	0.9m, 1.2m, 1.5m, 1.8m, 2.1m, 2.4m, 2.7m, 3.0m, 3.3m,
<u>Hardwood</u> Meranti, Iroko		3.6m, 3.9m, 4.2m, 4.5m

Iroko - Pair

Softwood PAR (Smooth) + Pales - Pair

Meranti

Softwood PAR (Smooth) + 3" x 3" Bottom Rail

# RANCH GATES

Meranti

# DRIVEWAY GATES

At Hales, all our driveway gates are **handcrafted to order**, here at our site in Shropshire by our skilled joiners. Choose from our four available styles; **Norfolk, Essex, Gloucester and Suffolk**. All styles are set within a deep wooden frame and are constructed using solid tongue and groove boards. The gates finished depth is 60mm. Choose from two available materials - **Swedish redwood** or kilned dried **Iroko**.

All our driveway gates come **untreated as standard**. However we do offer a **'Splash & Dash' Treatment** as an optional extra for softwood gates. £15 + vat / Pair

This treatment process consists of the gate being completely submerged in preservative within our on-site treatment plant facilities and then allowed to dry, leaving the surface of the timber coated in preservative. Choose between green or brown preservative.

Width	Height
7'0" O/A (Pair)	6'
8'0" O/A (Pair)	6'
9'0" O/A (Pair)	6'
10'0" O/A (Pair)	6'
11'0" O/A (Pair)	6'
12'0" O/A (Pair)	6'

All our driveway gates are made to your **exact requirements**. Above is a standard size guideline to help.

# GARDEN GATES

At Hales, all our **tongue & groove garden gates** are handcrafted to order, here at our site in Shropshire by our skilled joiners. Choose from our three available styles; **Norfolk**, **Essex**, and **Gloucester**. All styles are set within a deep wooden frame and are constructed using solid tongue and groove boards. The gates finished depth is 60mm. Choose from two available materials - **Swedish redwood** or kilned dried **Iroko**.

All our tongue & groove garden gates come **untreated as standard**. However we do offer a '**Splash & Dash**' Treatment as an optional extra for softwood gates. £15 + vat.

This treatment process consists of the gate being completely submerged in preservative within our on-site treatment plant facilities and then allowed to dry, leaving the surface of the timber coated in preservative. Choose between green or brown preservative.

Width	Height
2' 6" (762mm)	3'
3' 0" (915mm)	3'
3' 6" (1067mm)	3'
4'0" (1220mm)	3'
2' 6" (762mm)	6'
3' 0" (915mm)	6'
3' 6" (1067mm)	6'
4'0" (1220mm)	6'

All our garden gates are made to your exact requirements. Above is a standard size guideline to help.

## NORFOLK SINGLE GATES

T&G Solid gate which features a flat top design.

2.1m	150 x 150
2.4m	125 x 125
2.1m	125 x 125
1.8m	125 x 125

All our softwood gate posts are treated. We offer a standard treatment & HCD treatment (30 year desired lifespan).

All our softwood timber posts are pressure treated with Tanalith™ wood preservative. Timber treated with Tanalith™ has an initial natural green colouration and upon external exposure, the green colour slowly weathers to a warm, honey brown and in the longer-term becomes a natural silver grey. This weathering process does not indicate any loss of preservative protection. In some applications, an initial brown colour is preferred. To cater for this we offer Tanalith™ pressure treated with Tanatone™ a built-in rich brown colour.
